

Wholesale soaker hose, built to outlast the season

PRODUCT CATALOG

The pitta wholesale hose range

Six soaker hoses for distributors, garden retailers and private-label sellers. Every soaker line waters at the root to save up to 70% versus sprinklers, in durable, anti-aging builds, at low MOQ and private-label ready. Working pressure, burst pressure and certifications are confirmed per order rather than published as fixed figures, so the numbers you receive match your production run.

Soaker Hoses

The wholesale soaker line: porous hose that weeps water along its full length to save up to 70% versus sprinklers. In PE-rubber, foamed-rubber, reinforced-rubber and PE builds, from 1/2" to 5/8", all anti-aging and private-label ready.

1/2" Round Soaker Hose (US-spec, 14.6 mm OD)

PT-RS12

The wholesale workhorse. A US-spec 1/2" porous soaker hose in durable PE-rubber, anti-aging and UV-resistant, built to outlast the season. Seeps along its full length for even soil moisture. Low MOQ and private-label ready.

Size	1/2 in (US-spec)
Outer diameter	14.6 mm
Material	PE-rubber (anti-aging, UV-resistant)
Use	Garden / lawn / orchard
Working pressure	Contact for spec
Burst pressure	Contact for spec
Certifications	Contact for spec
MOQ	Low, trial-friendly

KEY FEATURES

- Saves up to 70% water vs. sprinklers
- Anti-aging, UV-resistant PE-rubber wall
- Even seepage along the full length
- Burst-resistant with a pressure regulator

APPLICATIONS

- Vegetable beds
- Lawn edges
- Flower borders
- Orchard rows

5/8" Porous Soaker Hose (US-spec, 20 mm OD)

PT-RS58

The higher-flow soaker. A US-spec 5/8" porous soaker hose in an anti-aging rubber and PE blend, built for larger beds, longer lawn edges and wider orchard rows. Pairs with the 1/2" workhorse for a full two-size range.

Size	5/8 in (US-spec)
Outer diameter	20 mm
Material	Rubber + PE (anti-aging)
Use	Garden / landscaping / agriculture
Working pressure	Contact for spec
Burst pressure	Contact for spec
Certifications	Contact for spec
MOQ	Confirm on inquiry

KEY FEATURES

- Higher-flow 5/8" bore for longer runs
- Saves up to 70% water vs. sprinklers
- Anti-aging rubber and PE blend
- Pairs with the 1/2" hose for a full range

APPLICATIONS

- Large beds
- Landscaping
- Orchard rows
- Agriculture

1/2" Foamed-Rubber Soaker Hose (50 m coil)

PT-RF12

A 1/2" soaker hose with a foamed-rubber and PE wall, supplied on a 50 m coil for lawns, flowerbeds and seepage irrigation. The foamed wall weeps a slow, even line of water along its full length.

Size	1/2 in
Outer diameter	16.8 mm
Material	Foamed rubber + PE (anti-aging)
Coil length	50 m (confirm on inquiry)
Working pressure	Contact for spec
Burst pressure	Contact for spec
Certifications	Contact for spec
MOQ	Confirm on inquiry

KEY FEATURES

- Foamed-rubber wall for even, gentle seep
- Supplied on a 50 m coil for volume
- Saves up to 70% water vs. sprinklers
- Anti-aging build, private label ready

APPLICATIONS

Lawns

Flowerbeds

Seepage irrigation

1/2" Reinforced Soaker Hose (abrasion-resistant)

PT-RR12

A 1/2" rubber soaker hose the supplier builds for abrasion resistance, made for high-volume cross-border marketplace and private-label listings. Seeps along its full length; the everyday high-volume line in the range.

Size	1/2 in
Outer diameter	16.8 mm
Material	Rubber (abrasion-resistant)
Use	Home / commercial garden
Working pressure	Contact for spec
Burst pressure	Contact for spec
MOQ	High-volume line, confirm on inquiry

KEY FEATURES

- Abrasion-resistant rubber wall
- Built for high-volume listings
- Saves up to 70% water vs. sprinklers
- Private label / OEM ready

APPLICATIONS

Home garden

Commercial grounds

Marketplace listings

1/2" PE Seepage Irrigation Hose (farm & greenhouse)

PT-PE12

A 1/2" PE and rubber seepage irrigation hose for farms, greenhouses and lawns, including buried micro-irrigation runs. Seeps water straight to the root zone at agricultural volume.

Size	1/2 in
Material	PE + rubber
Use	Farm / greenhouse / buried runs
Working pressure	Contact for spec
Burst pressure	Contact for spec
Certifications	Contact for spec
MOQ	Agricultural volume, confirm on inquiry

KEY FEATURES

- Even seepage for field and greenhouse rows
- Suited to buried micro-irrigation
- Saves up to 70% water vs. sprinklers
- Agricultural-volume pricing, private label

APPLICATIONS

Farm & field

Greenhouse

Buried micro-irrigation

1/2" Custom PE Soaker / Drip Hose (made to order)

PT-PEC12

A made-to-order 1/2" PE soaker and drip irrigation hose for gardens, lawns and agriculture. Built to your program; the working spec is set and confirmed on inquiry rather than fixed off the shelf.

Size	1/2 in	KEY FEATURES • Made to order in PE for your program • Soaker or drip configuration • Saves up to 70% water vs. sprinklers • Private label ready, spec confirmed on inquiry
